## Objective

Graduated in Internet Systems, I've been working as a developer since 2011, building a solid career in web and mobile development. My expertise spans front-end technologies such as JavaScript, React, React Native, Vue, as well as back-end tools like PHP, Node.js, and SQL. I also have strong skills in HTML, CSS, SEO, and UX methodologies, enabling me to create user-centered, high-performing digital experiences.

I'm passionate about innovation and committed to following industry best practices. Whether developing responsive interfaces, integrating APIs, or optimizing platforms for performance and accessibility, I aim to deliver scalable and impactful solutions for every project I contribute to.

## Professional Experience

### Visie

Front-end Developer

2019 - Present

- Developed various projects using WordPress, including API integrations and automation with HTML5, Sass, JavaScript, and Gulp. Additionally worked with Vue.js and Cordova for hybrid solutions.
- Managed projects and developed modern applications using Nuxt.js for Server-Side Rendering (SSR), React for web applications, and React Native for cross-platform mobile apps.
- Built native applications for iOS and Android with React Native and provided support for SaaS platforms, ensuring scalability and stability.
- Designed and optimized e-commerce pages on VTEX, focusing on custom solutions and backend integration.
- Leveraged Python, Alpine.js, and Nuxt.js to deliver e-commerce and other application solutions, including integrations with REST and GraphQL APIs, with endpoint testing and analysis using Postman.
- Contributed to the development of unit tests and end-to-end automation, while monitoring and optimizing CI/CD pipelines for continuous delivery.
- Use of code versioning with git.
- Actively participated in agile teams, contributing to Scrum rituals to ensure

continuous delivery and process improvement.

### **Inside Mídia**

Full-stack Software Developer

2017 - 2019

- Specialized in the development of custom WordPress themes, delivering tailored solutions that aligned with client requirements and enhanced user experiences.
- Worked extensively with WordPress API, creating seamless integrations and extending platform functionalities through the implementation of PHP and CodeIgniter for backend solutions.
- Designed and developed dynamic and responsive web applications, ensuring cross-platform compatibility and high performance.
- Collaborated closely with cross-functional teams to translate business needs into technical requirements, building scalable solutions from concept to deployment.
- Emphasized best practices in clean code, modular architecture, and optimization for improved site speed and functionality.

### **SoulMkt**

Developer

2014 - 2016

- Developed and maintained websites and online stores using Magento and Joomla, ensuring functionality and user experience.
- Gained expertise in responsive design, delivering consistent experiences across mobile and desktop devices.
- Utilized technologies such as HTML5, CSS3, JavaScript, and jQuery plugins to create modern, interactive interfaces tailored to client needs.
- Focused on performance-optimized solutions, ensuring cross-browser compatibility and delivering visually appealing, efficient projects.

### **Convertty**

Programming Assistant (Previously Intern)

2012 - 2014

- Worked on the development of websites, blogs, and systems using PHP technologies, CMS WordPress, and Bootstrap, contributing to the creation of efficient and functional solutions.
- Assisted in implementing responsive layouts compatible with various devices, as well as making adjustments and improvements to existing projects.
- Participated in the development of websites, blogs, and systems using PHP technologies and CMS WordPress, gaining hands-on experience and enhancing web development skills.
- Supported theme and plugin configuration, as well as the integration of custom features to meet project requirements.

## **Education**

### **Centro Universitário Descomplica**

2021 - Graduate degree in Mobile Applications

### **Centro Universitário ENIAC**

2014 - 2016 - Bachelor's Degree in Systems

### **ETEC Tiquatira**

Technical Program in Web Design

## **Skills**

JavaScript, HTML, CSS, Node.js, React, React Native, Vue, PHP, SQL, WordPress, Git

## **Languages**

English - Level B1

Portuguese BR - Native
